

ARIES: (Mar. 21- Apr. 19)

You will start something new this year, its going to be big, insightful, ambitious, everything you can ever hope for. You will forge a new path through areas you thought previously treacherous. Don't hesitate, chase that dream. It's a new year, a fresh challenge for you to overtake or don't, it's like whatever.

TAURUS: (Apr. 20- May 20)

This year will be your year. Many things will come to you. You will experience new and interesting things, things you thought you'd never enjoy before. Challenge yourself, the new year brings new fruit to harvest, and rewards to reap. Except mangoes. Mangoes are disgusting.

GEMINI: (May 21 – Jun. 21)

2018 will be filled with laughter, love, and joy. You will meet new people, reignite flames with old. You'll be surprised at the people who will come into your life. Don't be afraid to talk to that person, have confidence, be yourself and your energy will flow throughout. Embrace the year with your head high, what's the worst that can go wrong? But not too high, you could fall down the stairs.

CANCER: (Jun. 22 – Jul. 22)

The new year is your year. Surround yourself with those you love, and nothing will ever break you down. Challenge yourself to learn something new and useful. Learn to cook something unique, take a psychology course, volunteer and help the community. Focus on yourself this year, and you'll be amazed at the outcome. But don't forget those who look to you for support. Quit begging your teachers for A's.

LEO: (Jul. 23 – Aug. 22)

The new year will bring you excitement, passion, and creativity like you've never known. Attack this year with a blazing energy, and nothing will be able to stop you. You will find new ways to express yourself, people will be inspired by the things you create and your actions in your everyday life. It may get a little crazy, but so are you, you're prepared. Who are we kidding? You don't even bring a pencil to class.

VIRGO: (Aug. 23 – Sep. 22)

Ah, the new year. A blank slate, up to you to fill it. You will accomplish many things, you'll be proud of yourself, but don't stop yourself there. You will grow as a person, be much happier with the way you are, and in turn your peers will see you in an even brighter light. Don't be afraid to help out someone who may be in need, you may just be the angel they're looking for. Unless they're the devil you're not looking for.

LIBRA: (Sep. 23 – Oct. 23)

We can just act like the last year never happened. You'll likely be in for a trip this year, but just like last year, you'll make it through alive, and a better person for sure. Relationships will come and go, the benefits and losses along with it. You'll make deals, you'll forgive and forget, but you'll find some great moments this year, that you'll remember forever. Obama's still President, right?

SCORPIO: (Oct. 24 – Nov. 21)

This new year brings new opportunities, new experiences, and some wild rides. You'll meet someone new, or maybe discover an old friend that you will immediately "click" with, and you'll soon come to wonder how you ever lived without them. The world may not understand you sometimes, but that's okay. Show this world that you're unique, and do whatever it takes to make yourself known. If not, there's always your dog.

SAGITTARIUS: (Nov. 22 – Dec. 21)

Oh, you couldn't wait for this new year. You're already dreaming up all the things you'll inevitably do this year, traveling, speaking, inspiring people, whatever you choose this year, do it with gusto. You'll be approached with opportunities you surely don't want to pass up. Some of it may seem risky, exciting, mysterious, but you're used to that, just go for it. Shave that beard.

CAPRICORN: (Dec. 22 – Jan. 19)

What will you do with this year? You've grown and gained so much recently, and it won't stop anytime soon. This year won't be easy, but stick to your guns and it'll all go perfectly. You will be recognized this year, you won't be ignored. After all, you've done so much work, you've easily earned it. Speaking of gains, buy a new pair of pants.

AQUARIUS: (Jan. 20 – Feb. 18)

You're gonna do some amazing things this year. You and your teams can accomplish anything, and looking to the future, you're craving even more. You'll be surprised at many things this year, but you love surprises either way. Bring the school together and show them what we all can do. We all need your ideas, but it's up to you to share them. Quit bringing up that idea about High School Musical.

PISCES: (Feb. 19 – Mar. 20)

The year has finally come to an end, and you couldn't be more grateful. Now is the time to finish up anything you've previously left unfinished from previous years. It can be old artworks, projects, or relationships you need closure on. And don't be afraid to spend time alone, solitude can bring out the best in all of us sometimes. But you must be used to that.
